Future Reality Explored: Unveiling the Fundamentals of AI/AR and Crypto

ERMA is going to launch a new program! The program AI/AR and Crypto 101 inviting marketing professionals, risk management professionals and investors to embark on a transformative journey at the forefront of innovation. This time, we take "Future Reality Explored: Unveiling the Fundamentals of AI/AR and Crypto" as our main theme of the program. This program delves into the opportunities, risks and convergence artificial intelligence (AI), Augmented Reality (AR) and cryptocurrencies, empowering participants to embrace emerging technologies and enhance their risk management practices.

Mixed reality offers an immersive experience that blends virtual and augmented reality, providing marketing professionals and risk professionals with realistic simulations and training opportunities. By exploring the fundamentals of mixed reality, participants gain insights into how it can revolutionize risk assessment, decision-making, and crisis management strategies.
