**BRINGING RISK EXPERTISE TO
THE BOARDROOM AND C-SUITE**

WHO WE ARE

A GLOBAL INITIATIVE

The DCRO Institute is a nonprofit collaborative of board members and c-suite executives dedicated to advancing the governance of risk-taking at organizations worldwide. Graduates of our programs are leaders in boardrooms and c-suites on five continents.

We emphasize the positive use of risk and risk knowledge in board-level strategic planning. We develop and approve Qualified Risk Directors® who bring unique expertise to board service. We offer a growing library of learning and leadership development tools available to individuals and companies worldwide.

Our goal, which is emblazoned on our logo, is to help you and your organization to Innovate, Sustain, and Create Value.

OUR WORK WITH BOARDS

The DCRO Institute works with entire boards to help align board composition with corporate risk preferences, to develop a positive appreciation of risk-taking consistent with those preferences and goals, to identify and act upon emerging risks and opportunities, and to recruit or develop Qualified Risk Directors® to help advance board performance.

Opportunities include access to an extensive online library of

courses, board member development and recruitment, invitations to private emerging risk and opportunity briefings, and much more.

Thoughtfully embracing risk-taking in pursuit of our goals is something we know we must do. The right mix of board members and expanding risk knowledge stimulates confidence, innovation, and creativity, ultimately cascading through the enterprise.

OUR QUALIFIED RISK DIRECTORS®

A Qualified Risk Director® has the distinguished ability to link corporate strategy to the positive governance of risk-taking. They are uniquely valuable in a board setting where risk and strategy are interwoven.

We grant permission to use the designation to a diverse group of experienced senior executives and board members who have completed a comprehensive evaluation process.

We evaluate applicants across

their business experience, risk management and risk governance acumen, their personal leadership, and their educational background. Candidates must demonstrate breadth and depth across all four to use the designation.

Qualified Risk Directors® can be found serving in boardrooms on five continents, across various industries, serving on multiple board committees, and are an emerging best-practice addition to your board.
