GLOBAL TURMOIL: THE UNPREDICTABLE LANDSCAPE

In today's rapidly changing world, resilience has become an essential skill for individuals and organizations to survive and thrive. The ability to bounce back from setbacks, adapt to new circumstances, and maintain a positive outlook are the key factors in being able to withstand our ground. In this topic, we will explore the concept of resilience especially in both private and public sectors. We will examine the latest research on resilience and identify practical strategies for developing and strengthening resilience in ourselves and others. By the end of this webinar, participants will have a deeper understanding of what it means to be resilient and how to take the perfect approach.
